with a weary smile, said to the white aproned youth behind it: "Give me whatever you like for that, provided it is drink." The boy gave the thirsty soul a glass of water. The customer again smiled (not in the sense he had hoped to do so) and looked at the water with ineffable dis-

The *Capital* of Rosario gives the alarm as to another "sainete economico" being arranged in Sleepy Hollow, of which the remains of the paving loan in Rosario are to form the bases.

The Law Courts are to go either to the grand Bon Marche building in Calle Florida, or Anchorena's big barracks at the corner of Corrientes and Reconquista. The former would be the nicer place for the judges to sit.

A boy who ought to be soundly caned when caught caused a scare in town on Wednesday night, about 10 o'clock, by setting off a big package of tightly wrapped powder in Calle Montevideo, corner of

Boulevard. The report was as loud as that of a field-piece, and was distinctly heard in the suburbs, causing a revolution in the hour or so, as it was looked on as a signal.

Ferrari's concert for the Cordoba sufferers has burst up. The bad times and heat of the weather are saddled with the *fiasco*; but the plain fact of the matter is that this is the only thing that has

On this music-mad population has at last
 at sick of concerts, and won't attend
 them, even when got up for the purpose
 enabling them to cover their multitude
 of sins—and that's a rather big pile.
 We are quite unable to answer the query
 of a sedulous reader as to whether a fall in
 the price of Cedulas can fairly be consid-
 ered an aci(ed)ulated drop? The best
 reason to refer to is the acidulated Chan-

llor of the Argentine Exchequer, who will soon be an authority on a drop from the sweets of power to private life. The La Plata Municipality is said to be in a bad way: the ediles fighting amongst themselves, the Mayor paddling his own canoe, the clerks unpaid for three months; and so on. The times are out of joint, and new taxes on joint stock companies

Cigar men must naturally be rather seditious and weak, as everything in which they are most interested in this life invariably ends in smoke, and this reacts on their character. This was proved in the case of little Bolivar the other day when an audacious medical student swindled a purveyor of nicotine out of several boxes of Havana cigars by simply telling him that he had

The *Montevideo Times* gives the following particulars of the suicide of Major Coutinho:—

"On Wednesday afternoon, Sergeant Antonio Jose Coutinho, Administrator of the revenue for the Department of Maldonado,

a visit to the capital, went to the Hotel
ninsular and asked for his friend Larro-
The latter being out, Coutinho en-
tered his room, saying he would take a
rest," and closed the door. Late in
the evening the servant, wishing to
enter the room, knocked, but could get
no reply. The door was then burst open
and Coutinho was found stretched on the

quite dead, with a bullet wound in the forehead, and a small single-barreled pistol still firmly grasped in his hand. The body was quite cold, and the act had evidently been committed some hours before, the detonation of the pistol having been noticed. The body was sent to his family to live at Soriano 75. No motives are known for the deed."

An exchange says:—"One of the greatest

difficulties encountered in utilizing such tropical fibres as ramie, manilla, banana, coir, penguin and others is that there is a lack of appliances for treating them so that they can be made serviceable in manufacture. The Institute of Jamaica has therefore come forward with an offer of a grant of \$1,000 for the best machine, or set of machines, suitable for the purpose of

parting fibrous raw material." We ask Hamonet of this city could show the workers how to work these fibres, but the one offered is scarcely large enough to place him to compete.

Let me see you dare to do it!" as the man said to her husband when he told her she was going to throw himself into the river.

... yawning and twirling their thumbs, he m c's to turn up; but Mr. Manuel golia was the only one polite enough nt in an appearance. This is very sad. German gentleman in Rosario keeps ed up in his manly bosom almost as able a secret as that of his country- Dr. Koch. It is nothing less than a id that will wipe the locust species off

of the earth. The inventor has
ed it, for a consideration, to the Ma-
of Rosario: though the interest that
itary has in locust murder—unless it
o prevent the insects devouring the
ngstones and lamp-posts of the town—
